

MOLEY®-Standard

Automatic Roll Slitting Machine

MOLEY®-Standard 500/1600

With MOLEY® it's always a premium cut!

MOLEY®-Standard - the "classic" of MOLEY® roll slitters.

Over decades the "drawing cut" principle has proved the most efficient way of roll cutting for most fabrics. It works with straight knife blades, circular blades (stationary or conveyor-type) as well as with stiletto type knives.

To cut displaceable (soft wound) rolls without loss of material (e.g. nonwoven, textile, sealing, adhesive tapes etc.).

Intelligent use of the most advanced engineering methods ensures maximum operating comfort and working safety.

Versatile in application, reliable in performance, efficient in operation and always excellent cutting results - these are the basic features of all MOLEY® slitters.

- Electrics according to Euronorm EN 60204/1
- Programmable Logical Controls - Type Siemens S7
- Construction/execution conforming to Eurostandard "CE"
- Full compatibility of components (cutting tools) within the entire MOLEY® range
- Working width: 1200 to 3200 mm - as required
- Max. roll diameter to be cut: 480 mm (assuming core Ø_i 76 mm and use of straight MOLEY®-Knife)
- Dimensions (approx - for working width 1600 mm):
length 3,50 x width (depth) 1,50 x height 2,00 m - Weight: ca. 900 kg
- Operating voltage: 400 V - 3 PE - 50 Hz – 20 A
compressed air: 6-7 bar
